

Team Name: sdmay21-29

Team Members: Cory Smith, Evan Chritensen, Jacob Puetz, Jordan Silvers, Ben Gonner

Report Period: Aug 31-Sept 13

Summary of Progress in this Period

In this period we completed our review of the previous teams work and finished setting up IntelliJ in order to use the previous teams project.

Pending Issues

- Understanding IntelliJ plugin development
 - Researching Graph Neural Networks and their use in natural language translations
 - Researching supervised and unsupervised learning in natural language translation
 - Moving code to new repository
-

Plans for Upcoming Reporting Period

In the coming period, we will be researching different methods of converting natural language into code, moving the previous team's work into a new repository, and continuing to work on our understanding of the basics of plugin development for IntelliJ.
