

Team Name: sdmay21-29

Team Members: Jacob Puetz, Ben Gonner, Cory Smith, Evan Christensen, Jordan Silvers

Report Period: Sept 14-Sept 27

Summary of Progress in this Period

We completed the first version of the design document and began researching graph neural networks and how they could improve the plugin.

Pending Issues

Some team members are having issues running the code provided by the previous year team.

Plans for Upcoming Reporting Period

We need to finish our research on graph neural networks and create a presentation to give to the client on how it can improve the plugin.
