

Report Period: Aug 17-30

Summary of Progress in this Period

We had our first meeting with our client and faculty advisor, where we were briefed on the current state of the project and what our job would be in the course. Access has been given to all team members for the relevant repositories and files we will need.

Pending Issues

None yet.

Plans for Upcoming Reporting Period

The team has been split into two teams, one of which will work on familiarizing themselves with the current project and how the natural language converter works, while the other begins researching how to make plugins for IDEs.
